MARINE CORPS ORDER 1510.85A

From: Commandant of the Marine Corps
To: Distribution List

Subj: INDIVIDUAL TRAINING STANDARDS (ITS) SYSTEM FOR INFANTRY OFFICER OCCUPATIONAL FIELD (OCCFLD) 03

Ref: (a) MCO 1510.34A
(b) MCO 1553.1B
(c) MCO 1553.2
(d) MCO 1553.3
(e) MCO 3500.27

Encl: (1) Description of an Individual Training Standard
(2) Management of Individual Training Standards
(3) Summary/Index of Individual Training Standards
(4) Common Individual Training Standards
(5) Training Support
(6) Individual Training Standards
(7) Summary/Index of Individual Training Standards by Specific Category (MOJT, DL, PST)

1. Purpose. To publish revised Individual Training Standards (ITS) at enclosures (1) through (7) for OccFld 03 (Officer).

2. Cancellation. MCO 1510.85

3. Background

a. References (a) through (d) establish the system used to publish all training standards, provide policy, and assign training responsibilities, especially as applied to the Systems Approach to Training (SAT).

b. ITSS establish the training requirements for all Marines in the same occupational field (OccFld), Military Occupational Specialty (MOS), or billet. They provide a foundation upon which unit commanders, Functional Learning Center (FLC) directors, and distance learning (DL) developers build training packages for individual Marines as part of unit training plans or formal courses of instruction.

c. ITSS represent the skills that contribute to the unit mission as expressed in the Mission Performance Standards (MPS). Changes to doctrine or force structure or the introduction of new weapons or equipment may necessitate revision of this Order.

4. Summary of Revision. This order has been revised in its entirety.

5. Information

a. ITSS are used by unit commanders, FLC directors, and DL developers to design, develop, conduct, and evaluate the individual training of Marines. Unit commanders are responsible for the sustainment of all individual tasks that have been deemed, through analysis, to support the unit's Mission Essential Task List (METL). Unit commanders

can, therefore, use the tasks contained in this Order as the basis of individual training through Managed On-the-Job Training (MOJT), instruction in unit-level schools, or incorporation in their training plans. FLC directors and DL developers will derive Terminal Learning Objectives (TLO) and Enabling Learning Objectives (ELO) from the tasks, conditions, standards, and performance steps of each associated ITS. Task lists reported on Course Descriptive Data (CDD) submissions will consist of tasks contained in this Order that are designated for training at the appropriate level in the FLC. Task lists reported on Distance Learning Descriptive Data (DLDD) submissions will consist of tasks contained in this Order that are designated for DL training at the appropriate level.

b. Commanders and formal schools must apply the ORM process contained in reference (e) during the design, conduct, and supervision of all individual and unit training.

6. Action

a. Commanding General, Marine Corps Combat Development Command (CG MCCDC)

(1) Ensure all FLCs use this Order to train personnel to the standards required by grade and MOS.

(2) Ensure the Marine Corps Institute (MCI) and the Training and Audiovisual Support Centers (TAVSC) provide standardized performance support tools (PST) and other training support requirements to facilitate training in units.

(3) Review, revise, and manage the upkeep of this Order in coordination with Operating Force and Supporting Establishment commanders and MOS Specialists/OccFld Managers.

(4) Ensure the Combat Development System identifies and mitigates the impact on training, by MOS and ITS, of all new equipment.

b. Commanding Generals of the Marine Forces and Supporting Establishment Commands and Commanders of Separate Organizations not Commanded by a General Officer

(1) Use this Order as the basis for individual training.

(2) Conduct MOJT programs and/or instruction in unit level schools to satisfy initial, sustainment, and refresher training requirements in so far as the tasks support unit mission requirements.

7. Submission of Recommendations and Requirements. Recommendations concerning the content of this Order are invited. Submit recommendations for additions, deletions, or modifications to CG MCCDC (C472) via the chain of command.

8. Reserve Applicability. This Order is applicable to the Marine Corps Reserve.

DESCRIPTION OF AN INDIVIDUAL TRAINING STANDARD

1. ITS Designator. Each ITS has a unique three-part identifier that represents an MOS (or billet), a duty (or functional) area within that MOS, and a specific task included in that duty area. Each part is separated by periods. An example of an ITS Designator is 0311.02.08.

a. The first four positions ("0311" in the example above) represent the MOS or billet. For any ITS associated with an official MOS, the four digits must be identical to those assigned to the MOS in MCO P1200.7 (MOS Manual).

b. The middle two positions ("02" in the example above) represent the duty or functional area. Duty areas within a given MOS are assigned Arabic numerals. Duty areas 1 through 9 are always preceded by a leading zero. In the example above, "02" represents the second duty area under MOS 0311.

c. The last two positions ("08" in the example above) represent a specific task. Tasks within a specific duty or functional area are assigned Arabic numerals. Tasks 1 through 9 are always preceded by a leading zero. In the example above, "08" represents one task within the second duty area under MOS 0311.

2. ITS Components. There are six basic components of an ITS, five of which are mandatory:

a. Task. The task describes a specific and necessary behavior expected of a Marine in a particular MOS or billet. It is a clearly stated, performance-oriented action requiring a learned skill. Skills that "make" a Marine or qualify that Marine for an MOS are designated as "Core." Those advanced skills that are mission, grade, or billet specific are designated as "Core Plus."

b. Condition(s). This portion of the ITS describes the equipment, manuals, assistance/supervision, special physical demands, environmental conditions, and location affecting a Marine's performance of the task under real-world circumstances.

c. Standard(s). This portion of the ITS describes the level of proficiency to which the individual must perform the task.

d. Performance Steps. Collectively, the performance steps represent the logical sequence of actions required of the Marine to perform the task to standard. These actions are typically detailed in the references.

e. Reference(s). References are doctrinal publications, technical manuals, and other publications upon which the ITS and its performance steps are based. They should be readily available and provide detail to the procedures that are only summarized in the performance steps.

f. Administrative Instructions. Administrative instructions provide the trainer/instructor with special required or recommended circumstances, including safety precautions, relating to the training or execution of the task. These instructions may also clarify the meaning of the task.

3. ITS Training

a. Initial Training Setting. All ITSs are assigned an initial training setting that includes a specific location for initial instruction [Functional Learning Center (FLC) or Managed On-The-Job Training (MOJT)], a sustainment factor (number of months

ENCLOSURE (1)

between evaluation or retraining to maintain the proficiency required by the standard), and a "Required By" grade (the lowest grade at which task proficiency is required).

b. Distance Learning Product(s). This section includes a list of any currently available or planned DL products designed to provide training related to this task.

ENCLOSURE (1)

MANAGEMENT OF INDIVIDUAL TRAINING STANDARDS

1. ITS Use

a. ITSS form the basis for all individual training in Functional Learning Centers (FLC) and units. They are written for all MOSs in order to specify the critical skills required by units of their individual Marines in support of the unit's combat missions as defined in the unit's Mission Essential Task List (METL).

b. FLC directors are responsible for reviewing all ITSS marked for initial training at the FLC. They must conduct courses of instruction on those ITSS appropriate for their student populations in terms of grade or rank. The task portion of each ITS taught in a given course must appear in the Task List (Item 24) of the CDD for that course. In accordance with the Systems Approach to Training (SAT), a Program of Instruction (POI) must also be developed for the course.

c. ITSS provide measures of performance that can be used by unit commanders to diagnose individual deficiencies and design training. Noted deficiencies should be scheduled for remediation on training plans or through Managed On-The-Job Training (MOJT), as appropriate.

d. A Marine should continue to receive instruction on ITSS that support the unit's METL. Individual training cannot cease upon graduation from the FLC because FLCs cannot prepare every Marine to serve in every billet. Individuals should be given opportunities in the unit to gain experience and responsibility as quickly as possible.

2. ITS Maintenance

a. A relationship exists between ITSS and the threat to Marine forces. Changes in the threat often trigger corresponding changes in our weapons, equipment, or doctrine, which then necessitate producing new or updated training standards. Such action requires a team effort on the part of the operating forces, the FLCs, and staff agencies at both Headquarters, U.S. Marine Corps and the Marine Corps Combat Development Command (MCCDC).

b. ITSS are ultimately validated by unit commanders and FLC directors. Records of Proceedings (ROP) resulting from Course Content Review Boards (CCRB) conducted by FLCs are particularly well suited for recommending revisions. The ROP should contain a justification for each proposed addition, deletion, or change and should accompany any request to obtain authority to depart from the currently published ITSS. Unit commanders can recommend changes through participation in a school's CCRB or directly via the chain of command. Unless significant changes warrant earlier action, ITS orders are revised and republished on a 4-year cycle.

c. ITS management is a dynamic process involving user maintenance as the key to refining standards to best serve unit missions. ITS users should evaluate whether ITSS support or fail to support an MOS, and ITS components should be examined for realism and pertinence. Users are encouraged to submit recommended changes to published ITSS through the chain of command.

SUMMARY/INDEX OF INDIVIDUAL TRAINING STANDARDS

1. General. This enclosure is a summary listing of all ITS tasks grouped by MOS and Duty Area.
2. Format. The columns are as follows:
 - a. SEQ. Sequence Number. This number dictates the order in which tasks for a given duty area are displayed.
 - b. TASK. ITS Designator. This is the permanent designator assigned to the task when it is created.
 - c. TITLE. ITS Task Title.
 - d. CORE. An "X" appears in this column when the task is designated as a "core" task required to "make" a Marine and qualify that Marine for the appropriate MOS. The absence of an "X" indicates that this is an advanced ("core plus") task that is mission, grade, or billet specific.
 - e. FLC. Functional Learning Center. An "X" appears in this column when the FLC is designated as the initial training setting. The absence of an "X" indicates that the initial training is accomplished through Managed On-The-Job Training (MOJT).
 - f. DL. Distance Learning Product. An "X" in this column indicates that at least one DL product is associated with this task. Consult enclosure (6) for details.
 - g. PST. Performance Support Tool. An "X" in this column indicates that at least one PST is associated with this task. Consult enclosure (6) for details.
 - h. SUS. Sustainment Training Period. An entry in this column represents the number of months between evaluation or retraining by the unit to maintain the proficiency required by the standard, provided the task supports the unit's METL.
 - i. REQ BY. Required By. An entry in this column depicts the lowest grade required to demonstrate proficiency in this task.
 - j. PAGE. Page Number. This column lists the number of the page in enclosure (6) that contains detailed information concerning this task.

COMMON INDIVIDUAL TRAINING STANDARDS

1. General. This enclosure lists the ITS tasks common to more than one MOS within the OccFld. It is designed to assist the trainer in consolidating training for common tasks.

2. Format. The columns are as follows:

a. TASK TITLE. A listing of all tasks common to at least two MOSS.

b. COMMON TASK NUMBERS. A listing of the ITS designators for all ITSs containing the same task title.

<u>TASK TITLE</u>	<u>COMMON TASK NUMBERS</u>
COMPILE INFORMATION TO PREPARE SITREP AND OTHER REQUIRED REPORTS	0302.09.02 0306.08.02
CONDUCT A VEHICLE INSPECTION	0302.01.18 0303.03.03
CONDUCT BRIEF FOR ONCOMING WATCH	0302.09.03 0306.08.03
PERFORM DUTIES AS WATCH OFFICER IN COMBAT OPERATIONS CENTER (COC) AS REQUIRED BY SOP	0302.09.01 0306.08.01

TRAINING SUPPORT

1. This enclosure summarizes five categories of training support by ITS for the entire OccFld:

Appendix A: References

Appendix B: Training Materiel

Appendix C: Ammunition, Explosives, and Pyrotechnics

Appendix D: Distance Learning Products

Appendix E: Performance Support Tools

2. If support identified in any appendix is not applicable to this OccFld, the appendix will include a statement to that effect.

REFERENCES

1. General. References are doctrinal publications, technical manuals, and other publications upon which an ITS and its performance steps are based. They should be readily available and provide the detailed procedures for accomplishing the task. This section includes a list of all reference publications associated with any task in this OccFld.

2. Format. The columns are as follows:

a. REFERENCES. This column summarizes all references associated with at least one ITS task in this OccFld.

b. TASK NUMBERS. A listing of all ITS tasks to which the corresponding reference is associated.

DISTANCE LEARNING PRODUCTS

1. General. This appendix includes a list of all currently available or planned distance learning (DL) products, including Marine Corps Institute (MCI) publications, designed to provide training related to any task in this OccFld.

2. Format. The columns are as follows:

a. DISTANCE LEARNING PRODUCTS. This column summarizes all DL products assigned to at least one ITS task in this OccFld.

b. TASK NUMBERS. A listing of all ITS tasks associated with the corresponding DL product.

DOES NOT APPLY TO THIS ORDER.

INDIVIDUAL TRAINING STANDARDS

1. General. This enclosure contains all of the ITSs for this OccFld, grouped by MOS. Each MOS is contained in a separate Appendix to Enclosure (6).

2. Format. For each ITS, the following elements of information are provided:

a. TASK. The task describes a specific and necessary behavior expected of a Marine in a particular MOS or billet. It is a clearly stated, performance-oriented action requiring a learned skill. Skills that "make" a Marine or qualify that Marine for the appropriate MOS are designated as "CORE." Those advanced skills that are mission, grade, or billet specific are designated as "CORE PLUS."

b. CONDITION(S). This portion of the ITS describes the equipment, manuals, assistance/supervision, special physical demands, environmental conditions, and location affecting a Marine's performance of the task under real-world circumstances.

c. STANDARD(S). This portion of the ITS describes the level of proficiency to which the individual must perform the task.

d. PERFORMANCE STEPS. Collectively, the performance steps represent the logical sequence of actions required of the Marine to perform the task to standard. These actions are typically detailed in the references.

e. INITIAL TRAINING SETTING. All ITSs are assigned an initial training setting that includes a specific location for initial instruction [Functional Learning Center (FLC) or Managed On-The-Job Training (MOJT)], a sustainment factor (number of months between evaluation or retraining to maintain the proficiency required by the standard), and a "Required By" grade (the lowest grade at which task proficiency is required).

f. REFERENCE(S). References are doctrinal publications, technical manuals, and other publications upon which the ITS and its performance steps are based. They should be readily available and provide detail to the procedures that are only summarized in the performance steps.

g. DISTANCE LEARNING PRODUCT(S). This section includes a list of any currently available or planned DL products designed to provide training related to this task.

h. ADMINISTRATIVE INSTRUCTIONS. Administrative instructions provide the trainer/instructor with special required or recommended circumstances, including safety precautions, relating to the training or execution of the task. These instructions may also clarify the meaning of the task.

ADMINISTRATIVE INSTRUCTIONS:

1. This task can be trained to standard using inert training mines from TAVSC or "field expedient simulators".

TASK: 0302.01.12 (CORE) PLAN FIRE SUPPORT

CONDITION(S): Given a map and a mission order with a commander's intent for fire support.

STANDARD(S): To accomplish the mission in accordance with higher headquarters order and commander's intent for fire support.

PERFORMANCE STEPS:

1. Determine organic and non-organic fire support assets available.
2. Identify fire support control measures.
3. Plan targets in support of the scheme of maneuver.
4. Submit list of targets to higher headquarters.
5. Receive target list from higher headquarters.
6. Analyze higher headquarters' target list.
7. Integrate fire support plan with scheme of maneuver.

INITIAL TRAINING SETTING: FLC Sustainment: 6 Req By: 2ndLt

DISTANCE LEARNING PRODUCT(S):

1. MCI 7400, Warfighting

ADMINISTRATIVE INSTRUCTIONS:

1. This task applies to all operations.
2. This planning is conducted by the platoon commander.
3. This planning is conducted by the Company Fire Support Team Leader.

TASK: 0302.01.13 (CORE) LEAD A FIRE SUPPORT TEAM (FST)

CONDITION(S): Given a fire support team and an order with a scheme of maneuver and a commander's intent for fire support.

STANDARD(S): To support the Company Commander's scheme of maneuver in accordance with the commander's intent for fire support and the references.

PERFORMANCE STEPS:

1. Prepare for combat (0302.01.01).
2. Position FST where it can best support the scheme of maneuver.
3. Supervise the execution of the fire support plan.
4. Coordinate fire support requests.
5. Plan for follow-on operations.

ADMINISTRATIVE INSTRUCTIONS:

1. This task applies to all operations.
2. This is a company level task.

TASK: 0302.01.14 (CORE) DIRECT THE MEDEVAC OF A CASUALTY

CONDITION(S): Given a casualty, a team of Marines, a radio, and a designated casualty collection point or an area suitable for a pickup zone.

STANDARD(S): To evaluate wounded to designated collection point with minimal impact on unit mission.

PERFORMANCE STEPS:

1. Protect the casualty from immediate danger.
2. Administer immediate first aid.
3. Identify precedence assigned to the casualty.
4. Make arrangement/request for evacuation by most expedient means available.
5. Prepare casualty for movement.
6. Move casualty to casualty collection point.
7. Evacuate casualty by most expedient means available.
8. Submit a casualty report to higher headquarters.

TASK: 0302.01.15 (CORE) DIRECT THE RESUPPLY OF A UNIT

CONDITION(S): Given a unit (reinforced) and an order with an implied or specified task requiring the resupply of the unit.

STANDARD(S): To ensure the unit can logistically support the scheme of maneuver.

PERFORMANCE STEPS:

1. Establish the situation.
2. Receive subordinate unit resupply requests.
3. Develop supply request.
4. Submit requirements.
5. Coordinate resupply.
6. Receive supplies.

7. Distribute supplies.
8. Continue with assigned mission.

ADMINISTRATIVE INSTRUCTIONS:

1. A training strategy must accommodate the realities of peacetime and garrison life without sacrificing the knowledge and skills which keep Marines successful in battle. The limits of accommodation and flexibility rest within the judgement of the unit commander who is solely responsible for the combat preparedness of his command.

TASK: 0306.05.07 (CORE PLUS) PROVIDE INPUT ON WEAPONS TRAINING FOR A UNIT LONG-RANGE TRAINING PLAN

CONDITION(S): Given missions and requirements, unit goals, unit/individual strengths, training priorities, and a strategy for training covering 24 months.

STANDARD(S): To develop a long-range plan that covers a 24 month period. Plan is updated and published quarterly.

PERFORMANCE STEPS:

1. Schedule the required training to include events from the Training Exercise and Employment Plan (TEEP) compiled by subordinate staff sections.
2. Schedule prime time or training cycles.
3. Schedule unit controlled exercises and other training.
4. Conduct backward planning.
5. Advise commander on the integration of weapons training into the long-range training plan.

INITIAL TRAINING SETTING: MOJT Sustainment: 12 Req By: CWO2

REFERENCE(S):

1. MCO 1500.42A, Management for Marine Corps Formal Schools and Training Centers
2. MCO 1553.1A, The Systems Approach to Training
3. MCRP 3-0A, Unit Training Management Guide
4. MCRP 3-0B, How to Conduct Training

TASK: 0306.05.08 (CORE PLUS) PROVIDE INPUT ON WEAPONS TRAINING FOR A UNIT SHORT-RANGE TRAINING PLAN

CONDITION(S): Given an approved long-range planning calendar, training policies, resource availability, school quotas, training goals, and evaluation policies.

STANDARD(S): To develop a short-range plan derived from the long-range plan and unit input. The program consists of a series of training activities and events, provides training trainers with more detailed guidance, and allocates and coordinates required resources.

PERFORMANCE STEPS:

1. Review the training program.
2. Develop current unit training proficiencies/deficiencies.
3. Develop series of training activities and events.
4. Provide training trainers with appropriate detailed guidance.
5. Identify training resources.
6. Allocate and coordinate required resources.
7. Determine the training environment.
8. Advise the commander on integration of weapons training in the short-range training plan.

INITIAL TRAINING SETTING: MOJT Sustainment: 12 Req By: CW02

REFERENCE(S):

1. MCO 1500.42A, Management for Marine Corps Formal Schools and Training Centers
2. MCO 1553.1A, The Systems Approach to Training
3. MCRP 3-0A, Unit Training Management Guide
4. MCRP 3-0B, How to Conduct Training

ADMINISTRATIVE INSTRUCTIONS: A near-term training plan is derived from the short-range plan. It should be published six weeks prior to the quarter and remain inviolate so trainers (lieutenants and NCOs) have adequate time to plan, prepare, schedule, and rehearse their training events.

TASK: 0306.05.09 (CORE PLUS) ADVISE COMMANDER ON TRAINING AMMUNITION REQUIREMENTS IN SUPPORT OF TRAINING PLANS

CONDITION(S): Given an approved long-range training plan, appropriate Marine Corps Combat Readiness and Evaluation System (MCCRES) standards, Individual Training Standards (ITSS) for all MOSS in the unit, higher headquarters guidance, and MCBul 8011.

STANDARD(S): To assist the commander in relating training goals, subordinate unit training needs, environmental constraints, and the training ammunition guidelines available in higher headquarters orders.

PERFORMANCE STEPS:

1. Determine total annual ammunition required by standards established by MCCRES and ITSS for those training events approved in the long-range training plan.
2. Determine factors which currently affect unit ammunition allocation. (MCBUL 8011, para 1001.5.b(4), Basis of Allowance)
3. Compare ammunition requirements computed in Performance Steps 1 and 2.
4. Submit the larger requirement which includes ammunition for sustainment of individual proficiencies based on CMC approved standards rather than individuals or weapons.

INITIAL TRAINING SETTING: MOJT Sustainment: 12 Req By: CW02

REFERENCE(S):

1. MCO 1500.42A, Management for Marine Corps Formal Schools and Training Centers
2. MCRP 3-0A, Unit Training Management Guide
3. MCRP 3-0B, How to Conduct Training

ADMINISTRATIVE INSTRUCTIONS:

1. As training ammunition requirements go up the chain of command, higher headquarters must add the requirements which support their missions so that the validated subordinate unit requirements, which are based on approved standards leading to combat proficiencies, are not diluted beyond recognition.

TASK: 0306.05.10 (CORE PLUS) DETERMINE TRAINING AND AUDIOVISUAL SUPPORT (TAVS) EQUIPMENT FOR WEAPONS TRAINING

CONDITION(S): Given an approved long-range training plan and a training and audiovisual support center (TAVSC).

STANDARD(S): To request TAVS equipment annually per MCO P5290.1.

PERFORMANCE STEPS:

1. Separate TAVS requirements: devices and audiovisual.
2. Submit requirements to local TAVS activity.
3. Identify to the local TAVS commander requirements which must be submitted to higher headquarters for approval if not already available.
4. Revalidate and coordinate the status of all requirements with the local TAVS commander quarterly.
5. Submit requirements for TAVS support per MCO P5290.1.

INITIAL TRAINING SETTING: MOJT Sustainment: 12 Req By: CW02

REFERENCE(S):

1. MCO 1500.42A, Management for Marine Corps Formal Schools and Training Centers
2. MCO P5290.1, Marine Corps Training and Audiovisual Support Manual
3. MCRP 3-0A, Unit Training Management Guide
4. MCRP 3-0B, How to Conduct Training

ADMINISTRATIVE INSTRUCTIONS:

1. TAVS is an integral resource in developing training plans, especially as funding restrictions increase. Unit training managers should ensure TAVS requirements are identified in the long-range plan and tracked through subsequent planning documents.

2. TAVS is a joint responsibility between the local TAVS commander and the unit training managers at all command echelons. Training managers must articulate requirements in the long-range plans and monitor their fulfillment as plans enter the training phase. Local TAVS commanders must keep unit managers apprised of the status of requests so that the training plans and schedules can be dovetailed with local TAVS policies and procedures.

3. The Gunner should be familiar with the following simulators:
 - a) Pneumatic Mortar Device (M32)
 - b) TSFO (Trainer Support Forward Observer)
 - c) CAST (Combined Arms Staff Trainer)
 - d) IST (Infantry Squad Trainer)
 - e) ISMT (Infantry Squad Marksmanship Trainer)
 - f) Javelin PGTS
 - g) TOW PGTS
 - h) MILES (Multiple Integrated Laser Engagement System)

DUTY AREA 06 - RANGE OPERATIONS

TASK: 0306.06.01 (CORE PLUS) DEVELOP PRELIMINARY TRAINING EXERCISE

CONDITION(S): Given unit mission requirements, MCCRES standards, range orders, and appropriate doctrinal publications.

STANDARD(S): To meet unit combat readiness training requirements and unit mission requirements in support of MCCRES and doctrinal publication standards.

PERFORMANCE STEPS:

1. Receive training requirements.
2. Identify training deficiencies and determine requirements for preliminary training.
3. Develop preliminary exercise plan.
4. Review requirements in range orders and pertinent FMs and arrange for reconnaissance.

INITIAL TRAINING SETTING: MOJT Sustainment: 12 Req By: CWO2

TASK: 0306.06.02 (CORE PLUS) CONDUCT RECONNAISSANCE OF SELECTED RANGE

CONDITION(S): Given access to selected firing range, map, compass, range orders, and a preliminary exercise plan.

STANDARD(S): To ensure that a range is selected which will support requirements of range orders and exercise plans and conform to requirements specified in the reference.

PERFORMANCE STEPS:

1. Identify area with terrain features conducive to exercise requirements.
2. Visit site to identify fields of fire and key terrain features.

3. Identify safety areas and buffer zones.
4. Shoot azimuths to determine fire fan and buffer zones.
5. Select axis and direction of movement or defensive positions that best support the exercise plan.
6. Confirm and locate target mechanisms available.
7. Examine all marker pits and fire trenches that are to be used.
8. Locate fire positions and targets relevant to them.
9. Select locations for overhead fire and battle simulation explosives, if applicable.
10. Locate administrative and briefing areas.
11. Select start line and areas for concurrent training activity.
12. Determine areas unsafe for fire and limits for troop advancement.
13. Determine the types and quantities of ammunition range will support.

TASK: 0306.06.03 (CORE PLUS) DEVELOP AN EXERCISE PLAN

CONDITION(S): Given a preliminary exercise plan, results of reconnaissance, and a list of requirements.

STANDARD(S): To incorporate findings of reconnaissance and logistical requirements in support of training objective.

PERFORMANCE STEPS:

1. Confirm/modify preliminary exercise plan.
2. Develop concurrent training plan.
3. Develop exercise instructions for pertinent personnel.

INITIAL TRAINING SETTING: MOJT Sustainment: 12 Req By: CW02

TASK: 0306.06.04 (CORE PLUS) REPORT AMMUNITION MALFUNCTION

CONDITION(S): Given live fire training, local range regulations, and an ammunition malfunction.

STANDARD(S): To accomplish the requirements of the references.

PERFORMANCE STEPS:

1. Where ammunition performances presents an inherent danger to user such as short rounds and defective fuzes:
 - a. Cease firing the lot of ammunition suspected of being defective.
 - b. Gather facts in the ammunition malfunction.
 - c. Fill in NAVMC card 10155.
 - d. Return unused portion of ammunition with NAVMC card 10155 to ordnance officer.
2. Where ammunition is not performing to specifications, but does not present a danger to users:
 - a. Identify lot and DODIC number of ammunition.
 - b. Identify percentage of ammunition that fires erratically or that misfires.
 - c. Complete required information on NAVMC card 10155.
 - d. Process per local SOP.
3. Ensure reporting complies with reference.

TASK: 0306.06.05 (CORE PLUS) PROVIDE RANGE CONCEPT FOR A TEMPORARY RANGE

CONDITION(S): Given a unit mission, available land and maps, personnel, weapons and ammunition to be used, and references.

STANDARD(S): To support land, personnel, weapons, and ammunition requirements.

PERFORMANCE STEPS:

1. Conduct site analysis and selection.
2. Determine range configuration based on weapon characteristics and mission.
3. Conduct preparatory terrain analysis.
4. Determine SDZ requirements.
5. Plan for minimizing ricochets.
6. Design range to contain the effects of weapons systems so firing does not adversely affect the environment and the terrain permits maximum use of weapons.
7. Obtain approval of site from the installation commander.

TASK: 0306.06.06 (CORE PLUS) DETERMINE SAFETY REQUIREMENTS

CONDITION(S): Given a range, weapons which will be fired on the range, local SOP, and references.

STANDARD(S): To ensure safe, realistic training is accomplished so the potential for personal injury and property damage is minimized.

PERFORMANCE STEPS:

1. Review applicable weapons TMs to evaluate safety requirements concerning equipment capabilities and limitations.
2. Plan for public notification of firing.
3. Plan for the establishment of procedures for controlling and coordinating the use of airspace per FAA regulations and AR 95-50.
4. Plan for emergency vehicles.
5. Plan for hearing protection devices and safety gear.
6. Plan for records maintenance.

7. Plan for conducting range clearance per FM 9-15.
8. Plan for waivers.
9. Plan for the establishment of an educational program on the dangers of trespassing in impact areas and handling duds.
10. Plan for the location of a field Ammunition Supply Point (ASP).

TASK: 0306.06.07 (CORE PLUS) RECOMMEND SECURITY REQUIREMENTS FOR A TEMPORARY RANGE

CONDITION(S): Given a range, weapons which will be fired on the range, local SOP, and references.

STANDARD(S): To ensure safe, realistic training is accomplished and the potential for personal injury and property damage is minimized.

PERFORMANCE STEPS:

1. Plan for range boundaries and off-limit areas to be posted, if necessary.
2. Plan for duds to be cleared from the range prior to permitting personnel access, if necessary.
3. Plan for range guards, barriers, limit of fire markers, and signals to be posted to prevent passage of personnel or vehicles through the range during operation.
4. Plan for warning signals and signs to be provided.
5. Establish liaison with local authorities, if necessary.

TASK: 0306.06.08 (CORE PLUS) EVALUATE FIELD FIRING TRAINING PLAN

CONDITION(S): Given field firing training plan and range regulations.

STANDARD(S): To verify that field firing training plan complies with restrictions of range as stated in local range regulations.

PERFORMANCE STEPS:

1. Review range regulations.
2. Compare field firing training plan with range regulations.
3. Determine if requested training complies with range regulations.
4. Verify that the plan accounts for all safety and security requirements.

TASK: 0306.06.09 (CORE PLUS) RECOMMEND USE OF RANGES

CONDITION(S): Given field firing training plan, available ranges, targetry, maneuver areas, drill guides, and references.

STANDARD(S): To accomplish training objectives of a unit within the resources available.

PERFORMANCE STEPS:

1. Review field firing training plan.
2. Discuss training objectives with unit representative.
3. Review capabilities of ranges.
4. Determine best range and alternative range(s) to accomplish unit's training objectives.
5. Conduct a reconnaissance of recommended ranges with unit representative, if appropriate.
6. Schedule range.
7. Recommend ways to improve training plan.
8. Consider concurrent training.

TASK: 0306.06.10 (CORE PLUS) DETERMINE TARGETRY FOR A TEMPORARY RANGE

CONDITION(S): Given access to a range, range regulations, and references.

STANDARD(S): To develop a realistic representation of enemy situations and targets that are at realistic distances and of realistic exposure times to exercise correct gunnery techniques.

PERFORMANCE STEPS:

1. Ensure type of targets match weapons used.
2. Ensure targets provide realistic enemy scenarios.
3. Ensure a logical use of terrain for target situations.
4. Ensure each firing point has visibility with sufficient targets at proper ranges.
5. Ensure target exposure time accurately reflects enemy situations.
6. Assess moving targets.
7. Assess distance to target ensuring they are at realistic distances and take advantage of visibility, cover, and concealment.
8. Assess target protection, if necessary.
9. Develop and split gun-target engagement sequence tables to ensure all weapons fired can be contained within the installation boundary without endangering personnel or creating a hazard to property or facilities.
10. If firing could result in a projectile going beyond the SDZ, relocate the target or firing position or both to ensure safety.

TASK: 0306.06.11 (CORE) CONSTRUCT A SURFACE DANGER ZONE (SDZ) FOR A STATIC RANGE

CONDITION(S): Given an authorized shooting area and the requirement to conduct live-fire training.

STANDARD(S): To accomplish training objective of a unit in accordance with the references.

PERFORMANCE STEPS:

1. Determine maximum range of the weapons with ammunition to be fired to determine "distance X".
2. Determine left and right lateral limits based on "distance X".
3. Determine ricochet factor depending on composition of impact material down range.
4. Determine the number of firing points to calculate the width of the SDZ.
5. Draw an overlay on a 1:50,000 or 1:25,000 map to depict the SDZ.

TASK: 0306.06.12 (CORE) CONSTRUCT A SURFACE DANGER ZONE (SDZ) FOR A FIELD FIRE RANGE INCORPORATING DOWNRANGE MOVEMENT

CONDITION(S): Given an authorized shooting area and the requirement to conduct live-fire training with downrange movement.

STANDARD(S): To accomplish training objective(s) of a unit in accordance with the references.

PERFORMANCE STEPS:

1. Determine maximum range of the weapons with ammunition to be fired to determine "distance X".
2. Determine left and right lateral limits based on "distance X".
3. Determine ricochet factor depending on composition of impact material down range.
4. Determine the number of firing points to calculate the width of the SDZ.
5. Extend "distance X" commensurate with forward movement.
6. Extend "distance Y" to determine ricochet factor.

7. Sight targets with M2 compass to determine safe engagement angle for shooters so that fires are contained within the SDZ.
8. Identify special considerations for the conduct of fire over the heads of troops down range.
9. Draw an overlay on a 1:50,000 or 1:25,000 map to depict the SDZ.

TASK: 0306.06.13 (CORE) CONSTRUCT A SURFACE DANGER ZONE (SDZ) FOR AN INDIRECT FIRE RANGE

CONDITION(S): Given an authorized shooting area and the requirement to conduct indirect live-fire training.

STANDARD(S): To accomplish training objective of a unit in accordance with the references.

PERFORMANCE STEPS:

1. Determine maximum range of the weapons by consulting firing tables.
2. Determine probable error zone.
3. Determine area "A" and area "B" buffer zones.
4. Draw an overlay on a 1:50,000 or 1:25,000 map to depict the SDZ.

TASK: 0306.06.14 (CORE) CONSTRUCT A SURFACE DANGER ZONE (SDZ) FOR A GRENADE RANGE

CONDITION(S): Given an authorized shooting area and the requirement to conduct live-fire training with hand grenades, MK19 grenade launchers, or M203 grenade launchers.

STANDARD(S): To accomplish training objective of a unit in accordance with the references.

PERFORMANCE STEPS:

1. Determine maximum range of the weapons with ammunition to be fired to determine "distance X".
2. Determine left and right lateral limits based on "distance X".
3. Determine ricochet factor depending on composition of impact material down range.
4. Determine the number of firing points to calculate the width of the SDZ.
5. Compute area "A" and area "B" zones.
6. Draw an overlay on a 1:50,000 or 1:25,000 map to depict the SDZ.

TASK: 0306.06.15 (CORE) CONSTRUCT A SURFACE DANGER ZONE (SDZ) FOR AN ANTI-ARMOR RANGE (TOW, JAVELIN, DRAGON, PREDATOR, AT-4, OR SMAW)

CONDITION(S): Given an authorized shooting area and the requirement to conduct anti-armor live fire training.

STANDARD(S): To accomplish training objective of a unit in accordance with the references.

PERFORMANCE STEPS:

1. Determine maximum range of the weapons with ammunition to be fired to determine "distance X".
2. Determine left and right lateral limits based on "distance X".
3. Determine dispersion area.
4. Compute area "A" and area "B" zones.
5. Determine backblast area.
6. Draw an overlay on a 1:50,000 or 1:25,000 map to depict the SDZ.

TASK: 0306.06.16 (CORE) CONSTRUCT A SURFACE DANGER ZONE (SDZ) FOR A LIGHT ARMORED VEHICLE (LAV) 25MM GUN

CONDITION(S): Given an authorized shooting area and the requirement to conduct live-fire training with the 25mm Gun.

STANDARD(S): To accomplish training objective(s) of a unit in accordance with the references.

PERFORMANCE STEPS:

1. Determine maximum range of the weapons with ammunition to be fired to determine "distance X".
2. Determine left and right lateral limits based on "distance X".
3. Determine ricochet factor depending on composition of impact material down range (area "W").
4. Determine the number of firing points to calculate the width of the SDZ.
5. Determine area "A" and area "B" zones.
6. Determine maximum elevation to be used on guns.
7. Draw an overlay on a 1:50,000 or 1:25,000 map to depict the SDZ.

DUTY AREA 07 - PREVENTIVE MAINTENANCE

TASK: 0306.07.01 (CORE PLUS) ADVISE COMMANDER ON PROCEDURES FOR THE MAINTENANCE OF WEAPONS IN A TACTICAL ENVIRONMENT

CONDITION(S): Given a mission, a tactical situation, and unit situation reports.

STANDARD(S): To ensure units keep weapons in serviceable condition in support of the mission.

PERFORMANCE STEPS:

1. Identify tactical situation of units.
2. Identify availability of support for units.
3. Provide assistance in establishing guidelines for field maintenance of weapons.
4. Recommend to the commander a unit weapon preventive maintenance schedule based on current combat situation and location of units in and out of hostile areas.

INITIAL TRAINING SETTING: MOJT Sustainment: 12 Req By: CW02

REFERENCE(S):

ADMINISTRATIVE INSTRUCTIONS:

1. This task includes all environments to include jungle, cold weather, mountain, and desert.

TASK: 0306.07.02 (CORE PLUS) ADVISE COMMANDER ON INTEGRATION OF WEAPONS TRAINING AND PREVENTIVE MAINTENANCE IN UNIT WEAPONS TRAINING PROGRAM

CONDITION(S): Given a weapons training program.

STANDARD(S): To ensure that preventive maintenance is included in the weapons training program.

PERFORMANCE STEPS:

1. Identify time in all weapons instruction to conduct preventive maintenance training.
2. Advise commander about policies to implement integration of weapons training and weapons training programs.

DUTY AREA 08 - BATTALION WATCH OFFICER IN A COMBAT OPERATIONS CENTER

TASK: 0306.08.01 (CORE) PERFORM DUTIES AS WATCH OFFICER IN COMBAT OPERATIONS CENTER (COC) AS REQUIRED BY SOP

CONDITION(S): Given an order with a mission and a operational situation, appropriate status boards, maps, overlays, and a unit journal within a battalion COC.

STANDARD(S): To accomplish the intent of the higher headquarters order in accordance with commander's guidance and unit SOPs.

PERFORMANCE STEPS:

1. Receive turnover from offgoing watch.
2. Direct and supervise COC watch.
3. Obtain situation updates from watch personnel.
4. Obtain information from the appropriate subordinate and supporting units.
5. Update status information.
6. Conduct turnover with oncoming watch.

TASK: 0306.08.02 (CORE) COMPILE INFORMATION TO PREPARE SITREP AND OTHER REQUIRED REPORTS

CONDITION(S): Given an operational situation, appropriate status boards, maps, appropriate reports from subordinate and supporting units, overlays, and a unit journal within a battalion COC.

STANDARD(S): To update the commander and inform him of changes during the reporting period.

PERFORMANCE STEPS:

1. Establish contact with staff or unit representatives of subordinate or supporting units.
2. Obtain subordinate/supporting unit reports as established per SOP.
3. Consolidate unit reports.
4. Assist in preparation of battalion level reports for submission to higher headquarters.
5. Prepare and provide SITREP to the commander.

CONDITION(S): Given an operational situation, appropriate status boards, maps, overlays and a unit journal within a battalion COC.

STANDARD(S): To ensure that all watch personnel are made aware of events and situations occurring during the previous shift.

PERFORMANCE STEPS:

1. Review unit journal, status boards, and unit reports.
2. Brief personnel on COC activities and special concerns.
3. Provide recommended action for any unresolved issues.

SUMMARY/INDEX OF INDIVIDUAL TRAINING STANDARDS BY SPECIFIC CATEGORY (MOJT, DL, PST)

1. This enclosure summarizes the Individual Training Standards (ITS) according to three categories:

Appendix A: ITSS Trained via Managed On-The-Job Training (MOJT)

Appendix B: ITSS Supported by Distance Learning (DL) Products

Appendix C: ITSS Supported by Performance Support Tools (PST)

2. If no information is applicable to a category, the appendix will include a statement to that effect.

3. Format. The columns in each appendix are as follows:

a. SEQ. Sequence Number. This number dictates the order in which tasks for a given duty area are displayed.

b. TASK. ITS Designator. This is the permanent designator assigned to the task when it is created.

c. TITLE. ITS Task Title.

d. CORE. An "X" appears in this column when the task is designated as a "core" task required to "make" a Marine or qualify that Marine for the appropriate MOS. The absence of an "X" indicates that this is an advanced ("core plus") task that is mission, grade, or billet specific.

e. FLC. Functional Learning Center. An "X" appears in this column when the FLC is designated as the initial training setting. The absence of an "X" indicates that the initial training is accomplished through Managed On-The-Job Training (MOJT).

f. DL. Distance Learning (DL) Product. An "X" in this column indicates that at least one DL product is associated with this task. Consult enclosure (6) for details.

g. PST. Performance Support Tool (PST). An "X" in this column indicates that at least one PST is associated with this task. Consult enclosure (6) for details.

h. SUS. Sustainment Training Period. An entry in this column represents the number of months between evaluation or retraining by the unit to maintain the proficiency required by the standard, provided the task supports the unit's METL.

i. REQ BY. Required By. An entry in this column depicts the lowest grade required to demonstrate proficiency in this task.

j. PAGE. Page Number. This column lists the number of the page in enclosure (6) that contains detailed information concerning this task.

ENCLOSURE (7)

INDIVIDUAL TRAINING STANDARDS TRAINED VIA MANAGED ON-THE-JOB TRAINING

This appendix includes a summary listing of all ITS tasks planned for initial Managed On-The-Job Training (MOJT). They are grouped by MOS and Duty Area.
